Lucky Joshi

Full Stack Developer | MERN Stack Developer | Python Developer

India | Email: luckyjoshi524@gmail.com

Portfolio | Projects | GitHub | LinkedIn

Professional Summary

A highly motivated Full Stack Developer and MERN Stack Developer with hands-on experience designing, developing, and deploying responsive web applications. I work across React, Next.js, JavaScript, TypeScript, Node.js, Express.js, MongoDB, SQL, REST APIs, Python, Git, and GitHub, with a strong foundation in Data Structures, Algorithms, DSA, and problem solving. My AI-powered study platform Mentixo AI shows my ability to turn complex product requirements into clean, efficient, and accessible code. I am actively seeking Software Engineering Intern, AI Intern, Machine Learning Intern, Full Stack Intern, Backend Developer Intern, Frontend Developer Intern, and Research Intern opportunities.

Technical Skills

- HTML5, CSS3, JavaScript (ES6+), TypeScript
- Tailwind CSS, Git
- React, Next.js, Node.js, Express.js
- MongoDB, Mongoose
- REST API design, JWT Authentication
- PostgreSQL, MySQL, SQL
- Version Control (Git, GitHub)
- Python, Django, C++, Java
- Supabase, Prisma, Data Structures, Algorithms, DSA

Projects

Mentixo AI — Full-stack AI-Powered Study Assistant: Built a scalable full-stack AI and machine learning intern-ready study platform featuring conversational AI, OCR-powered doubt solving, quiz generation, REST APIs, and real-time analytics using React, Node.js, Gemini API, and Supabase.
DevFlow - Personal Productivity System: Full-stack productivity platform with Kanban boards, project tracking, analytics, responsive web design, and backend APIs. Built with React, Node.js, PostgreSQL, and Tailwind CSS.
Spyderman Shooting Game: Browser-based JavaScript and HTML5 Canvas game demonstrating frontend developer skills, algorithms, real-time scoring, and interactive web development.
GraphyGen: Python Developer CLI tool to generate graphs from CSV data using Matplotlib, file parsing, and data visualization workflows.

Education

Keshav Mahavidyalaya, University of Delhi
Bachelor's of Science — Expected 2028

Additional Highlights

- Exploring Figma for UI/UX design and responsive frontend workflows
- Building consistent MERN stack, Python, and AI portfolio projects
- Active GitHub portfolio with real-world applications, REST APIs, and problem-solving practice
